BAL SANSKRITI

VEDIC CULTURE
AND VALUES
FOR CHILDREN

The richness and authenticity of the course content comes from the teachings and directions of our spiritual master, His Divine Grace A.C. Bhaktivedanta Swami Prabhupada (Founder – Acharya of the worldwide Hare Krishna Movement).

This course is carefully designed to gradually train the young children to adopt Vedic culture, values and teachings as a part of their lifestyle. A sattvik Vedic lifestyle will promote overall well-being and development of the child and make him a responsible son/daughter and citizen. The course has a fine blend of value based instructions and interesting activities centered around the Vedic teachings to charge up the young children and keep them enthused in attending these sessions regularly.
